

PUMP LINES

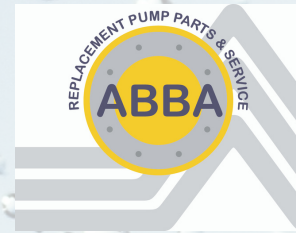

PUMPS: Dry-Pit and Submersible Solids Handling, Horizontal Split-Case, Vertical Turbine and Submersible Turbine
Legacy lines include Worthington, Ingersol, and Bryon Jackson

CHOPPER PUMPS: Drypit, Submersible, Self-Priming, Screw Impeller, End Suction, Vertical Cantilever, and Wetwell Conditioning

SLUDGE PUMPS: Rotary Lobe Pumps and Grinders
Designed for viscous liquids, heavy solids, abrasives, and wastewater sludge

REPLACEMENT PARTS: Drop-in Parts, Rotating Assemblies, and Complete Pumps
For most major pump manufacturers including: Fairbanks Morse, Allis Chalmers, Smith and Loveless, Morris/Yeomans, Aurora, Wemco, Patterson, Gorman Rupp, Cornell, Goulds, Chicago, and others

PUMPS, MIXERS: Submersible Pumps, Submersible Mixers, End Suction, Booster Packages, and Well Pumps

PUMPS: Grinder Pumps, Sump Pumps, Sewage Pumps, Effluent Pumps, Drain Pumps, Complete Pre-assembled Sewage Packages, and Pump Accessories

HARD METAL VORTEX PUMPS: Submersible Pumps, Horizontal Pumps, Close Coupled Pumps, Vertical Pumps, and Column Pumps

STORM WATER AND DEWATERING PUMPS: Axial and Mixed Flow Pumps, Submersible Propeller Pumps, and Hydraulic Driven Propeller Pumps

WATER & WASTEWATER PROCESS EQUIPMENT

FLOATS/LEVEL SENSORS: Uses Fiber Optic cables with NO POWER OR MERCURY in the wetwell

CONVEYORS: Screw and Belt Conveyors, Elevators, Gates, Storage Bins and Silos

SCREENS: Flex Rake Full Penetration Screens, Trash Racks, Storm Screens, Washer/Compactors, and Flexible Conveyors

HEADWORKS: Screens and Conveyors, Grit Classifiers, Spiral Screw Screens, Septage Receiving Stations, Packaged Headworks Plants, Grit Separators, and more

MIXING: Vaughan Rota-Mix; Mixing Systems for Digesters, Blend Tanks, Holding Basins, and Overflow Basins

AERATION: Fine and Coarse Bubble Aeration

ODOR CONTROL: Systems for Wastewater Plants, Lift Stations and Manholes
Removal of unwelcome odors including hydrogen sulfide (H₂S) from both aerobic and anaerobic vapor streams

SLUDGE PRESS: Rotary Fan Press; Skid or Trailer Mounted

SCREENS: Rotary Drum Fine Screens
Up to 6 MGD, Sludge Thickeners

WASTEWATER TREATMENT: Sequence Batch Reactors (SBR's), Grit Removal Systems, Grit Classifiers, Cloth Filter Systems and Decanters

LIFT STATIONS: Complete Pump and Lift Station Packages, Building Enclosures
Media Filtration, Ultra Filtration, Reverse Osmosis, Softening, Ionization and Ion Exchange

WATER TREATMENT SYSTEMS AND LIFT STATIONS: for Towns, Municipalities, Housing Developments, Fish Hatcheries, Campgrounds, Utilities, Mining Operations, Energy Companies, and Industrial/Commercial Applications

ELECTRICAL EQUIPMENT

ADJUSTABLE SPEED: Eddy Current Drives

SCADA: Mission-managed SCADA is a turnkey system delivered through a Software as a Service model that enables users to gain complete system monitoring.

VARIABLE FREQUENCY DRIVES (VFDs): Soft Starters and Micro Drives

RAGGING PREVENTION: Controller to prevent and eliminate pump ragging
